

Behind the Scenes in the ART Laboratory

Jason A. Barritt, PhD, ELD, HCLD

Chief Scientific Officer

Laboratory Director and Research Scientist

ART Reproductive Center Beverly Hills, CA

The goal of this presentation is to demonstrate some of the most advanced laboratory techniques that allow an IVF laboratory to assist in the optimal outcomes for patients. Lecture, discussion, and videos will be used to allow the learners to be fully immersed in the laboratory techniques of Time-Lapse Embryo Culture, Embryo Biopsy for Genetic Analysis, along with the application of the latest artificial intelligence (AI) technologies. Some of the critical steps in each procedure will be discussed.
