

Craig S. Niederberger, MD, FACS

Craig S. Niederberger, MD, FACS, is the Clarence C. Saelhof Professor, Head of the Department of Urology, and Chief of the Division of Andrology at the University of Illinois College of Medicine at Chicago. He is also a professor in the Department of Bioengineering at the University of Illinois College of Engineering.

A board certified urologist, Dr. Niederberger was educated at Harvey Mudd College, a member of the Claremont College Consortium in Claremont, California. He received his medical degree from the University of Pittsburgh, followed by residencies in surgery and in urology at Michael Reese Hospital and the University of Illinois at Chicago. He completed a fellowship in andrology at the Baylor College of Medicine, Houston, Texas.

Specializing in the field of male infertility and erectile dysfunction, Dr. Niederberger has been at the forefront of reproductive surgery and technology. He offers his patients the latest medical and surgical

procedures in the diagnosis and treatment of male fertility.

Recognized for leadership of his fields of practice, Dr. Niederberger served as President of the Society for the Study of Male Reproduction (2004-2005) and as President of the Society for Male Reproduction and Urology and the Chicago Urological Society (2005-2006). Within the American Society for Reproductive Medicine (ASRM), Dr. Niederberger has served as Chair of the Electronic Communications Resource Committee, General Program Chair of the 2009 Annual Meeting, and as a member of the Continuing Medical Education Committee.

Previously, Dr. Niederberger served as Associate Editor-in-Chief of Fertility and Sterility and in editorship positions with the Journal of Urology, Practical Reviews in Urology, The Journal of Andrology and Urology Times. Currently, he co-moderates "Androlog", an international email user's group devoted to clinical and research issues in male reproductive medicine. He is an editor of the fourth edition of [Infertility in the Male](#) and [An Introduction to Male Reproductive Medicine](#).
