

Alexander M. Quaas, MD, PhD

Alexander M. Quaas, MD, PhD, is the founding member of Shady Grove Fertility in San Diego, California. In addition to his clinical responsibilities, Dr. Quaas is very involved in teaching and research in the field of Reproductive Endocrinology and Infertility (REI). He is President

and serves on the Board of Directors of the Pacific Coast Reproductive Society (PCRS).

Dr. Quaas earned his medical degree from the University of Manchester in the UK, and a doctorate from the Albert Ludwig University in Freiburg, Germany. He completed a residency in Obstetrics and Gynecology at Harvard University, followed by a fellowship in REI at the University of Southern California. After completing his fellowship, and board certification in REI, Dr. Quaas became a faculty member at Oklahoma University Health Science Center (OUHSC) and at the University Hospital

of Basel, Switzerland, where his ongoing special interests in endometriosis, adenomyosis, polycystic ovarian syndrome, third-party reproduction, and fertility preservation began.

While working at OUHSC, Dr. Quaas completed a Master's degree in Clinical and Translational Science at the University, and participated in the prestigious ASRM/NICHD/Duke Clinical Research/ Reproductive Scientist Training (CREST) Program.

Fluent in English, Spanish, German, French, and Italian, he has authored and co-authored many peer-reviewed publications and book chapters and serves on the editorial boards of *Fertility and Sterility* and the *Journal of Assisted Reproduction and Genetics*.

Dr. Quaas has received numerous teaching and research awards, including multiple "Teacher of the Year" awards from his students at Harvard Medical School.
